» Alabama Technology Network

Address:

301 Sparkman Drive, Shelby Center 129, Alabama, United States 35801

Description:

The Alabama Technology Network is a part of the Alabama Community College System and the Manufacturing Extension Partnership. ATN's team of experts helps solve the needs of industry and business through innovative, sustainable, cost-effective solutions. We can conduct detailed needs assessments, outline potential solutions based on the results, and then provide technical assistance to help you solve those problems or identify those who can. We link industries and businesses with resources from our network of universities, colleges, businesses, and government to deliver the training needed to be more efficient, more productive, and more competitive. We partner with the two-year colleges, The University of Alabama System, Auburn University, and The University of Alabama in Huntsville to provide services through a variety of training options and methods, and are strategically located throughout the state to provide local points of contact.
