Address:

315 Wynn Drive Suite 1, Alabama, United States 35805

Description:

Sentar helps businesses and government entities succeed using our advanced technology and experts that are eager to help you solve your toughest challenges.

Founded in 1990, Sentar is a Women-Owned Small Business (WOSB) providing advanced Intel and cybersecurity services and products. We supply cybersecurity technology solutions and consulting services that empower our customers to securely leverage their computing and network assets to their fullest potential.

Sentar's innovative cyber security technologies protect network and host computer resources from cyber attackers and malicious insiders.

Sentar's expert professionals are well versed on the use of our technologies, as well as a broad range of industry standard tools. Together, we provide comprehensive Intel services, Cybersecurity service, Information Assurance services, commercial software development services, military and aerospace contracting, advanced research and development, and consulting services supporting business process engineering and process improvement, such as Capability Maturity Modeling Integration (CMMI).
